Description / Action:

- DSI 9152 Rev. D adds D205-665-011/013 kits to D205-634 skidtubes. DSI does NOT need to be added to existing D205-634/665 kits in stock.
- D2886-1 Guard has minor machining changes for compatibility with Dart saddles. D2886-3 is unchanged.
- D205-665-011 now at CHG 002. D205-665-013 stays at CHG 001.
- Parts being made for one customer. These parts are still obsolete, they will hopefully not be machined again.
- Ensure latest paperwork (from this ECN) is included in kits being made.
